HIGH-CONVERTING FACEBOOK ADS SWIPE FILE

We've spent well over **\$100 million dollars on ads**. In over 1,067 industries and niches... to generate our clients over **\$7.8 billion in sales**.

And, unlike the legions of Facebook ads gurus that litter the internet, we're not just going to be talking about the success we've seen for our own business, in just one niche. Because, heck, who are we fooling here? You've already seen our ads all over the internet. That's the very reason you're reading this now. You know, we know our shit.

To cut a long story short - we've tested literally everything. Image ads, video ads, newsfeed vs desktop placements, lead ads, carousel ads etc. you name it, we've tested it.

In this document, you'll discover a swipe file of some of the highest-converting ads I've ever seen. Some of them are from our clients. Others are not.

I've put this together so you can see what works and 'model' (Read: not copy...if you do that I will hunt you down Liam Neeson style). Use them as inspiration for your own ads. The following ads are in no particular order.

This is crazy!
To be honest, it's quite possibly the most controversial (yet exciting) opportunity for people who love Pilates...
Seeking a fulfilling career...
Which breaks you out of the corporate attire...
And will get you into yoga pants and raking in up to \$1,250+ per week - (while working part-time hours.)
We get it.
Life can get in the way.
It's so easy to get caught up in the pressures of 'life'.
It could be a mortgage over the head.
Bills to pay.
Commitments to attend to.
Meanwhile, you're working 40-60 hour weeks in corporate attire and all you want to do is sit in your yoga pants and watch Netflix.
The reality hits hard...
Especially when it's so easy to scroll on Instagram and see hundreds of friends doing what they love...
Spending time with their family, seeing friends, going for coffee and lunches every day and wishing you were in the same position as them.
But what if you were to discover an opportunity to try something new without the risk of losing income...
An opportunity which doesn't require 4 years of education to get started - (and no experience needed)...
An opportunity which allows you to find the work-life balance you crave, working in yoga pants and helping improve the lives of others.
Listen up...
Right now, there is an exclusive program that is helping females transition into a rewarding career in just 20 weeks...
Earning up to \$1,250+ per week while working part-time!
You see, after 15 years of research and testing...
A foolproof 5-step system has now been developed based on the teachings of Joseph Pilates.
"But why is this system so powerful?"
Because this system allows ANYONE to transition from their dull 9-5 job and replace it with a fun, exciting and fulfilling career (which pays well).
In fact, this breakthrough opportunity has changed the lives of more than 3,100+ individuals just like you...
Working with complete joy and passion for life again thanks to this exclusive system...
And many of them had never even heard of Pilates before.
"How can I get more information about this breakthrough system?"
This is all revealed in this brand new and free report titled:
"How To Rake In \$1,250 Per Week Teaching Pilates - In The Next 20 Weeks"
If you've ever thought about making a career switch and building a life filled with passion and enjoyment, (while getting paid extremely well), this report is a MUST READ.
<https://breathe.edu.au/free-ebook-1/>
Here are some of the remarkable secrets you'll find within this blueprint.
🔑 5 simple steps to become your own boss by teaching Pilates in as little as 20 weeks... (These steps are easy and you can get started on step #1 right now)
🌟 The hidden-secret to changing people's lives and how to get paid \$1,250/week... (You'll never 'work' a day in your life if you truly LOVE what you're doing)
✅ How to break the shackles of self-doubt with a proven 3 step method... (This tried and tested system will inject confidence into your self-esteem)
👉 Why do you not have to look like a ballerina to feel comfortable teaching Pilates... (Your current flexibility, body shape, and strength do not matter and this will reveal why)
👉 How to become a confident Pilates instructor with the teachings of Joseph Pilates... (These were the original techniques which were first created back in the 1920s)
Pretty amazing, don't you think?
One last thing, you may be wondering why we are giving this away 100% free.
The answer is simple.
Raphael Bender (Founder of Breathe Education) has been gifted with a wonderful life thanks to Pilates...
And he feels a strong sense of duty to share his wonderful good luck with others.
Giving this away is one way of doing that.
It contains everything you need to transition out of the uninspiring 9-5 and live a life of fulfillment...
But we cannot give this away for free forever.
This value-packed report is value-packed with over 20 years of his hard-earned knowledge...
So we reserve the right to pull this free eBook down at any time.

"I have just started using this to help with respiratory symptoms. I have only taken it 5 days and am really surprised that I can feel a difference. Going on a couple of walks that I usually would have to use my inhaler - no wheezing! So glad I tried it." - Dianne R.

Coughing your lungs out all day?
Can't sleep properly through the night?
Want to exercise like ordinary people?
Respiratory problems are no fun at all.
You take your inhaler with you everywhere you go...
Worrying you'd left it on the countertop.
Tippy toeing all your life just so you can breathe smoothly like normal people.
Wish you could breathe freely?
Introducing Zestt Breathe+...

The revolutionary award-winning natural remedy that treats respiratory illnesses at its cause. In fact, our co-founder Darcy Schack was in a hospital bed breathing in oxygen masks 6 years ago.

The doctors thought he had lung cancer with 5 years remaining max...
But 6 whole years later he is breathing cold fresh air every day...
With the help of 1 Breathe+ Lozenge a day.
Breathe+ is backed by 10,000+ hrs of scientific research and studies...
And have been relieving lung issues for 1,000s of people every day.

So how does Breathe+ work?
Let's break it down to the basics.

Many respiratory problems are underpinned by inflammation.
The modern lifestyle of stress, allergens, chemicals, pathogens, excessive sugar and processed foods is triggering our immune system into a fight-or-flight response all the time...
So our body is in a chronically inflamed state.
And if your body were to be irritated further...
You can get long term health issues.

Many prescriptions are like an ambulance at the bottom of a cliff, they don't solve the underlying problem
Breathe+ works because it dials down that fight or flight response at the outset...
Giving you a healthy respiratory system every day...
Which means more air for your lungs.
So if you'd like to breathe smoother than a meditating yogi...
Click the link below to get Breathe+ today.
www.zesttwellness.com/products/zestt-breathe

Breathe+ is invented by PhD scientists and has been featured in...
Otago Daily Times, Natural Product Expo, Nutralredients Europe Awards, NBR, China Business Club Innovation Award, and other media outlets.
Because Breathe+ is a naturally derived formula...
It does not come with any negative side effects or contraindications with other medications.
The only side effect you'd experience is fresh, cool air in your lungs.

Hear it in other people's words...

"After a few days of taking them, my cough had completely disappeared. I could breathe again and my energy returned. What an amazing product. Why don't our GPs give us things like this instead of inhalers which don't really work?"
Breathe+ is here to give you back the full potential of living...
The energy to play with your grandkids...
And the ability to sleep better and exercise.
So if you want to get your best life back now...
Click the link below to order Breathe+ today.

WANNA COPY AND PASTE \$1B WORTH OF ROAS-PRODUCING ADS RIGHT INTO YOUR AD ACCOUNT?

Oh, you would, huh? I thought so. Well, that's what it's like when you hire us to create some juiced-up high-converting Facebook ads for your business.

In fact, I've got a whole roster of marketing geniuses hopped up on caffeine and cranberry-buffalo bars, just waiting to turbocharge your ads...But before you apply to work with us, we should get to know each other first...We do this by offering you a free 30-minute growth map scaling call with us in order to see whether we're a good fit.

On the call, we'll lay out a growth map specifically tailored to where you're at...

Whether you're scaling from \$50k per month to half a million, or going from a million a month to \$2 million a month. And once the plan is mapped out you can do one of two things.

1- You can implement that plan on your own or...

2- You can partner with us, and get one-on-one help in scaling up.

Either way, we're all good. There's no obligation to work with us, or for us to work with you, whatsoever.

Sound good? Good, great, fantaaaastic.

But here's the catch you've been looking for... We can't help everyone.

This offer is for legitimate and hungry DTC brands who are doing at least \$50,000 per month, who are already running ads and are looking to scale FAST. And who know deep down their digital marketing is not living up to its potential.

This isn't for brand-new beginners, dropshippers, broke business owners, or B2B E-commerce businesses. No hard feelings. That's just not what we do either.

But if you think you qualify... And you're ready for an inbox that's bursting at the seams with Shopify notifications...

And a ROAS that's as steady as a rock at wild scale... All ya need to do is gently caress the button below and book your call.

And then decide if this is right for you. That's it from me. Look forward to talking to you soon!

Best,
